Nets for every goal - since 1992

We are pleased to present you with the latest brochure for our sports range. As our slogan shows, we have nets for every purpose. Whether it's football, handball or hockey, we can supply the right goal net for you. And the net is important to divide the court properly for other ball sports as well, take volleyball, tennis and badminton for example. We offer a very wide range of nets, and also specialise in supplying made-to-measure nets. In short, Howitec is your partner for all types of net.

Made-to-measure work from our own textile workshop

Are you looking for a 15 m long volleyball net? Or a net of 60 metres in length and 3 metres high to screen off a sports field? What about a football net in three different club colours? Perhaps you're looking for a volleyball net with the logo of your club. These are just a few examples of the made-to-measure solutions available from Howitec. We have an extensive textile workshop in Bolsward where our highly-skilled staff work. They can make your net exactly as you want it.

Since 1992

Since 1992, Howitec has been the premier specialist in nets and meshes for horticulture, sport and for the industrial/transport sector. Throughout the years, acquiring and sharing knowledge, providing training and continuously innovating have become increasingly important. The result of this is that we have a very wide range of sturdy, high-quality nets. Thanks to the close links we have with various sports associations, we supply the best nets to both professional and amateur competitions – and have done so for more than 25 years.

Your experienced partner in sports nets

Thanks to our experience and options to supply made-to-measure nets, we are your premier partner for sports nets. Whether you are a sports facilities installer, a supplier of sports equipment, or the owner of a sports shop, we would be happy to work with you. You can contact us at any time for more information or to plan an appointment.

AND LOTS MORE...

Custom nets

Howitec Netting offers a wide range of standard nets and meshes. We also have our own textile workshop in Bolsward. Here, nets and meshes are made to your requirements on request. Whether you require a round or triangular net, or any other shape for that matter, our experienced staff can make the right net for you. There are also many different options for finishing. We would be happy to tell you more during a face-to-face meeting.

AND LOTS MORE...

Private Label

Would you like to sell our products with your own label? Or would you like to have the logo of your sports club printed on the net? And what about a goal net in your club colours? These are all possible. If you are interested, please let us know and we would be happy to discuss all the options with you.

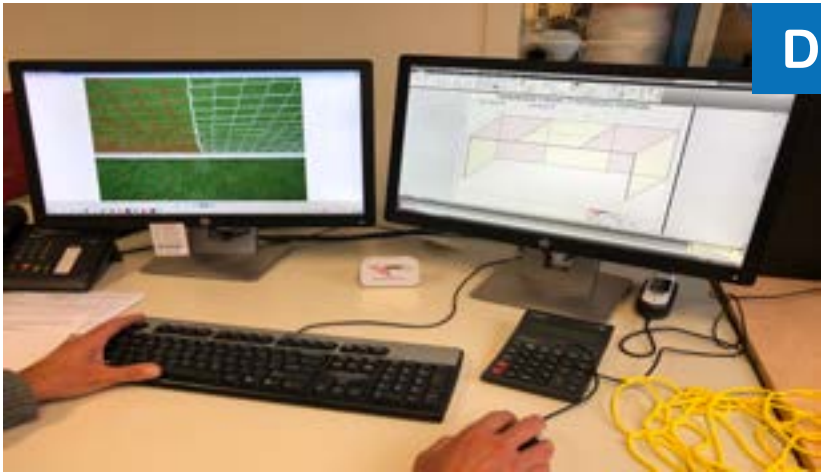

Quality control

Howitec Netting believes in quality, and thus supplies nets and meshes with a long lifespan and optimal quality. To offer you top-quality nets, all our incoming stocks are carefully checked in our "Howi-Lab". Here, the nets are tested for various characteristics, such as tensile strength, weight, mesh size and colour.

Rapid delivery from stock

We have a wide range of nets ready for you in our large warehouse in Bolsward (NL). In most cases, we can send standard nets within 24 hours of ordering. The nets are packed in sturdy plastic bags and cardboard boxes, and we work with a reputable shipping company.

Design & drafting

Howitec has its own design and drafting studio. If you have special wishes for your net, we can transform those wishes into a clear design. This means you will have a clear idea of what your net will look like. Based on this drawing, our colleagues can transform your wishes into an appropriate net.

Nets for every goal

In addition to sports nets, Howitec also supplies nets for horticulture, retail, transport and industry. Whether you're looking for a trailer net or an insect screen, a net for grapes or a goal net, Howitec has it. Our categories are horticulture, retail, sport, transport & industry and net cages. It's no coincidence that our slogan is "nets for every goal".
